

MULTI PROBE ADAPTER MPA2

The MPA 2 is the smallest of the Multi Probe Adapter systems. It has no external power supply, drawing power from the USB on the computer it is connected to. Its size and weight makes it the most portable of the MPA systems. It has no fixed sebum socket, but can accept the external sebum measurement if this measurement is required.

FEATURES

- Small, lightweight USB powered base unit
- Highly portable
- Connection of two probes
- Operated using MPA software
- Can accept all probes except Cutometer® probes
